
CITY OF BLOOMFIELD, IOWA

RESOLUTION AUTHORIZING BRIC PROJECT-SCOPING APPLICATION AND COST SHARE

Resolution No. _____

WHEREAS, the City of Bloomfield proposes the **Bloomfield Generation and Substation Hardening Project Scoping** activity to evaluate municipal generation-control and electric-substation vulnerabilities; develop mitigation alternatives and an approximately 30-percent conceptual design; complete Benefit-Cost Analysis and preliminary Environmental and Historic Preservation documentation; and prepare a future Hazard Mitigation Assistance implementation subapplication; and

WHEREAS, the total project cost is **\$330,000.00**, consisting of a requested federal share of **\$297,000.00 (90 percent)** and a State of Iowa non-federal share of **\$33,000.00 (10 percent)**, with **no local cash-match requirement**; and

WHEREAS, the City understands that it remains responsible for costs determined ineligible, costs incurred outside the approved scope or period of performance, costs exceeding the approved budget unless an amendment is authorized, and any local obligations not covered by the federal or State shares; and

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Bloomfield authorizes submission and administration of the BRIC project-scoping subapplication, accepts the proposed cost-share structure subject to FEMA and Iowa HSEM award terms, and authorizes the Mayor, City Administrator, Community Development Director, or other duly designated representative to execute application, award, and grant-administration documents on behalf of the City.

PASSED AND APPROVED this _____ day of _____, 20____.

Mayor / Authorized Representative

City Clerk
