3.3 In the first and second columns of the table below, list every city and unincorporated area within the planning area along with the county. For reference, planning area members are listed on the second page of the planning area's goal progress calculation. Then complete one or more of the following items based on the member's method of cooperation in the planning area.

- If the member is joined in a 28E agreement, list the row number from the table above that identifies the 28E agreement in which the member is covered.
- If the member is not covered in a 28E agreement, list the member's resolution number that approves the comprehensive plan update and either attach the resolution or note the digital link to the resolution.
- If the member is within a designated Iowa Solid Waste Environmental Management System (EMS) service area, check the box in the last column.

As needed, insert additional copies of this page so there is one row for each member.

List of Members

Member - list city name or "unincorporated area"	County	28E Row Number	Resolution Number	Designated EMS
Agency	Wapello		See attachment A.	☐ Yes
