Thank you for considering Grout Scouts, Inc. for the culvert maintenance for the City of Bloomfield. Grout Scouts, Inc. will provide all supervision, labor and specialty equipment for the repair. The City will provide location of utilities, excavation, culvert cleaning, material, and traffic control as needed.

48" Reinforced Concrete Pipe Repair Near the High School

GSI will repair a 48" RCP by hand patching all separated joints; tying all joints of the 48" pipe with flat steel and wedge anchors; placing a new invert in the cast in place portion of the pipe structure; and pressure grouting to fill voids surrounding the outside of the structure. The reinforced concrete box extension appears to be sound and does not need repair. The 12" reinforced concrete pipe that enters the 48" RCP from the north will be replaced by the City of Bloomfield.

GSI estimates this repair will take 38 hours at \$365.00 per hour:

\$13,870.00

Estimated Material Cost to the City

5 yards of Grout at \$300.00 per yard:

1,500.00

15 bags of Portland cement at \$20.00 per bag:

300.00

40 -3/8"x1.5"x 2' joint ties at \$8.00 per piece:

320.00

80- 1/2" x 4.25" wedge anchors at \$1.00 per piece:

80.00
