Todd,

Per your request, I removed the 30" bucket and added a 12" bucket. I included an updated quote for each machine that is itemized, and removed the hammer and packer.

If you would like to include a hydraulic coupler for the 35G it is a \$3,240 increase with the municipal discount.

If there is an interest, I can recalculate financing that shows the removal of the accessories. JDF financing is available for one or more machines, with the ability to skip out as far as 12 months. Let me know if you have any questions.

Thank you,

From: Todd Schumaker <todd.schumaker@cityofbloomfield.org>

All Deere mini excavators and CTL's/Skid Steers have 2 years 2000 hours unlimited. We can add more if you like, just let me know.

Most owners of Compact Equipment stick with just the factory warranty, as there isn't a lot to go wrong, and anything simple like hose fittings or seals are caught within the first 50 hours or so. Municipalities get good rates on extended warranty, so I certainly wouldn't advise against it, but I just wanted to let you know what most customers do. I will be happy to quote you a few options on extended warranty if you like? It wouldn't take me very long at all.
