Any funds awarded will go towards a new scoring system at the bowling alley. The current system was damaged recently leaving 4 out of the 8 lanes without a scoring system. The system that the bowling alley had was so outdated, that there is no way to replace just the 4 lanes that are damaged, therefore all 8 lanes will need to be replaced and updated to a newer system.

Attached is an estimate from Qubica AMF for the cost of a new scoring system for all 8 lanes. Included in the quote is everything needed to get all 8 lanes back up and keeping score for our bowlers.

Current Budget/Revenue/Expenses: We currently have not taken over any of these items yet, so these are unknown. All revenue is going to be put back into the building until it is back up to quality standards.

Our goal within the next 1-2 years is to raise enough funds to create a place where our Davis County youth want to go spend time with their friends, and families want to take their children for an enjoyable family outing. All current profit from sales at the bowling alley, along with league fees and tournament money is all being put back into the bowling alley for upgrades. We are also planning on working with other clubs, foundations, businesses, community members, and investors to raise funds to make this a place for our families and youth to enjoy.
