

M3 has purchased the Davencorp bldg, (Former American Tank). They have requested that the existing Gas Manifold be updated. The Gas Meter & Regulator also needs to be updated. Tyler McClure with M3 Fabrication requests that this be completed as soon as possible (lead time on the manifold is approx 4 weeks, M3 will be billed for all parts used except for Gas Meter, Regulator, New Anodeless Riser , New Riser Valve, 2" EF Coupler. No labor will be billed.

Please make sure to include this in the next City Council Agenda for Approval to Purchase the Gas Manifold , Meter , & Regulator & other parts Quoted (Quote # 34102) from KGM. I requested a quote from USDI in Unionville MO. but did not receive one. David Wood advised they were too busy at this time.

Please see the attached quote:

Thank you, Todd

Todd/Rusty - please make sure the billing is consistent with the current ordinance until any changes are made.

Thanks.
