To: Kyle McClure <kyle.mcclure@cityofbloomfield.org>

I will be doing used car sales as well as wanting my recyclers license. In the following excerpt from the Iowa Dot I will only be doing point #3. As I would be buying salvaged vehicles from insurance auctions and be rebuilding them to sell as rebuilt title vehicles. I will not be doing any scrapping or used auto parts sales etc...

“In the state of Iowa, you are required to have a vehicle recycler’s license if you are engaged in or advertise being engaged in, the business of any of the following:

1. Selling or offering for sale used bodies, parts of bodies, frames, or component parts of more than six used vehicles subject to registration in a twelve-month period.
2. Dismantling, scrapping, recycling, or salvaging more than six vehicles subject to registration in a twelve-month period.
3. Rebuilding or restoring for sale more than six wrecked or salvage vehicles subject to registration in a twelve-month period.
4. Storing more than six vehicles not currently registered or storing damaged vehicles except where such storing of damaged vehicle is incidental to the primary purpose of the repair of vehicles for others”

As far as the zoning letter they do not have a template for it just the following requirements of a letter I have to attach with my license application.

“Zoning letter: Written evidence, issued by the office responsible for the enforcement of zoning ordinances in the city, town, or county where the place of business is located that states the place of business is in compliance with all applicable zoning provisions.”

If you have any other questions please let me know. Thank you.
